List are really easy to create

- One entry in the list

- Another entry in the list

Here begins something more complicated!

1. First level item

2. First level item

   (a) Second level item

   (b) Second level item

        i. Third level item

        ii. Third level item

            A. Fourth level item

            B. Fourth level item
